Why Choose OASIS+ ?

Domains Include:

Technical and Engineering

Research & Development

Intelligence Services

Domains, scope and labor categories ([gsa.gov](https://www.gsa.gov))

Contract Holder

OASIS+ Features Include:

- **Simplified Acquisition Process:** GSA eBuy streamlines the submission of RFIs, RFPs, and amendments through the MRAS Program. Easily manage task orders from solicitation to award across a wide range of services and multiple domains.
- **Versatile Task Orders:** Award task orders for complex CONUS and OCONUS projects across any contract type. Leverage a hybrid mix of CLIN structures tailored to meet task order requirements, enabling requirements-driven labor categories to address specific project needs.
- **Long-Term Contracting and Cost Efficiency:** Benefit from long-term ordering periods of up to 10 years, and manage large and complex projects without the burden of constant recompile.
- **No Cost Analysis Required:** Pricing is already determined to be fair and reasonable by GSA, which simplifies the procurement process for agencies.
- **Best-In-Class (BIC) Designation:** OASIS+ is recognized as a Best-in-Class contract, supporting agencies in meeting their spend under management objectives.
- **Low Contract Access Fee:** Enjoy the benefits of OASIS+ with a minimal contract access fee of just 0.15%, providing excellent value for your agency.
- **Accessible to All Federal Agencies:** OASIS+ is available for use by any federal agency, offering a versatile and effective contracting solution tailored to your needs.
- **Easy Ordering:** FAR Subpart 16.505 streamlined acquisition procedures provide for easier of ordering than with FAR subpart 15.3.
- **No protests** on orders valued up to \$10 million.
