

## Advanced Solutions for Real-World Impact

Sherpa 6, a Service-Disabled Veteran-Owned Small Business, provides advanced tech solutions that empower Warfighters and defense partners with tailored, mission-ready innovations.

## Enhancing SOF Readiness

Since 2022, Sherpa 6 has provided mission-critical technical support to U.S. Special Operations Forces (SOF) across 14 strategic locations globally.

Sherpa 6's Tactical Mission Support Engineers (TMSEs) are embedded directly with SOF Warfighters, delivering comprehensive training, systems integration, engineering, and sustainment for critical communications platforms. Leveraging a proven multi-domain support model, Sherpa 6 provides hands-on training and technical expertise while maintaining system readiness and compliance for the Tactical Local Area Network (TACLAN) and Satellite Deployable Node (SDN) Families of Systems.

Sherpa 6 is proud to serve our SOF Warfighters by keeping them at the tip of the spear and their critical communications systems mission-ready.

## Featured Products

### TRAKR

**TRAKR** is an ATAK, WinTAK, and TAKX plugin providing real-time beacon tracking through customizable geofences for diverse operations. It enhances situational awareness with snapshot reporting, streamlines munitions tracking, modernizes legacy system connections, and improves convoy management via vehicle scanning and route planning, all within an intuitive dashboard.

### Sensitive Site Exploitation

**SSE** is a versatile TAK plugin that captures mission-critical information during post-assault operations that feeds the F3EA process, and reduces time on target and administrative burdens for the maneuver force.

## WATCHTOWER

Watchtower centralizes the Army's digital ecosystem as a **Large-Scale Tactical Device Orchestration** solution, replacing fragmented systems with unified oversight. The TRL 9 GOTS platform slashes provisioning time to under five minutes, ensures over-the-air compliance, and orchestrates seamless integration across evolving technologies and threats.

**Federated Configuration Management**

**Rapid Deployment Provisioning & Mobile Device Management**

**TRL 9 GOTS Battle-Ready and Field-Proven**

**IoT Device Management**

With Watchtower, gain access to complete mobile device and configuration management, enhance security, and streamline operations through automated workflows. Leverage its marketplace, IoT device management, and AI-driven policy and security to support acquisition decisions and maintain a robust, connected ecosystem.

**Secure MDM for Tactical Edge Devices**
